Pushpendra Pal

PP.

COMPUTER SCIENCE · AI & MACHINE LEARNING

India

GitHub / Pushpu88 LinkedIn LeetCode HackerRank

PROFILE

B.Tech Computer Science and Engineering student specializing in AI & Machine Learning. Building foundations in programming, data structures and algorithms, data analysis, and software development through coursework, practice, and personal projects.

EDUCATION

B.Tech — Computer Science & Engineering (AI & ML)
Parul University · Current student
CGPA 8.32

12th Standard
Central Public School, Lucknow

TECHNICAL SKILLS

Programming: Python, Java, C, C++

Web: HTML, CSS, JavaScript, Bootstrap, Flask, Django

Problem Solving: Data Structures & Algorithms, LeetCode, HackerRank

AI / Data: Machine Learning, NumPy, Pandas, Matplotlib, Data Analysis

Tools & Database: Git, GitHub, VS Code, Jupyter Notebook, SQL

SELECTED PROJECTS

Resume Screening System · IN DEVELOPMENT
Exploring an ML- and NLP-based approach to analyzing resumes and assisting candidate screening.
Python · Machine Learning · NLP · Pandas

Student Grade Prediction · IN DEVELOPMENT
Machine-learning project exploring student performance prediction from relevant input features.
Python · Pandas · NumPy · Scikit-learn

Athletix · CONCEPT
Sports platform concept for helping young athletes showcase profiles and discover opportunities.
Sports · Community platform

Iris Classification · IN DEVELOPMENT
Classification project exploring iris species prediction from flower measurements.
Python · Scikit-learn · Pandas · Matplotlib

Gradient Descent Visualizer · IN DEVELOPMENT
Visualization project exploring how gradient descent minimizes a mathematical loss function.
Python · NumPy · Matplotlib

PROFESSIONAL DEVELOPMENT

Red Hat course attendance document available upon request.

INTERESTS

Artificial Intelligence · Machine Learning · Software Development · Data Structures & Algorithms · Defence Technology
